INTRODUCTION

From time to time Council is approached by various organisations asking to leave a petition on Council premises, ie. Administration Office, Library and Information Centre, for members of the public to sign. To date some have been accepted and others declined. In agreeing to have petitions on-site, Council is in essence supporting the petition subject.

POLICY STATEMENT

That petitions be received in Council buildings when Stratford District Council support the intent of the petition.

In marginal cases, the decision to accept/decline to be at the discretion of the Chief Executive who may consult the District Mayor.
